

C/S Pediluxe

17mm Aluminium Primary Entrance Matting

C/S Pediluxe® is the most versatile of all the aluminium profile systems. It combines rugged construction with a luxury 'feel' underfoot and enough tread and colour options to satisfy the most demanding project requirements.

Its exceptional load bearing capability makes it especially suitable for high volume areas such as shopping centres, hospitals and passenger termini. At 17mm deep it fits directly into most existing matwells, facilitating quick and easy installation.

C/S Pediluxe Gold® is the brass rail version offering a simply stunning quality and appearance.

C/S Pediluxe® with carpet inserts

Rail finish options

Mill (standard)

Clear anodised

Black anodised

Features

- Recess or surface mounted options
- Rolls up for easy matwell cleaning
- Exceptional rolling load capabilities in excess of 500kgs/wheel (C/S Pediluxe Gold 350kgs/wheel)
- Closed spline option with deep channels allows in situ cleaning along with very high dirt containment
- Open spline option allows dirt to fall into the matwell, the mat can then be rolled up for matwell cleaning
- Field changeable inserts without the use of specialist tools for low lifecycle costs
