

Milliken Obex[®] Prior[™]

External & Internal Modular Matting

Milliken Obex[®] Prior[™] is manufactured in modules allowing any size or shape of mat well to be fitted with the minimum of waste. Damaged sections can be replaced by changing only the individual tiles and not the complete unit as with other systems. The product is extremely durable and can be used in an internal or external application. Milliken Obex[®] Prior[™] is available in closed or open construction and in 11mm or 16mm gauges.

Prior[™] can also be used as a border tile or as a lead in tile to Milliken Forma[™] or Tergo[™]

Tile Construction

Material:	UV resistant PVC
Module Size:	20 x 20cm (in use 19.5 x 19.5cm)
Thickness:	16mm
Colour:	Graphite
Safety:	Friction DIN 53375 - B (1986)
Temp Resis. :	-30c + 50c
Ozone Resis. :	50pphm ozone 30c
